7 Detail

- 7.1 The principle legislative Act regarding enforcement by the Council is the Regulatory Enforcement and Sanctions Act 2008 which endeavours to ensure that local authority regulatory enforcement is carried out in a way which is transparent, proportionate, consistent and targeted only at cases in which action is needed. The Council's policies are periodically reviewed to take into account legislative changes and to ensure the policies are aligned with the Council's corporate objectives and evolving service delivery models.
- 7.2 The revised policy on enforcing environmental crimes confirms the Council's triple-track approach to responding to such crimes that consists of Education, Enforcement and Cleansing. It emphasises the importance of targeted action by Council Officers, and the importance of targeting activity in those areas that are experiencing the greatest problems. The revised policy recognises the Council's changed operating model following the creation of Alliance Environmental Services (AES) and the role of Council services in delivering the policy following internal restructuring.

7.3 The Council's other service areas with enforcement activity will revise their service specific policies to ensure they are consistent with the overarching themes in the policies attached to this report.
