7. Detail

- 7.1 The Elections Act 2022 received Royal Assent on 28 April 2022 and contains various elements which will impact on how elections are administered and conducted in the UK. The scope of the Act is wide ranging and covers the following main areas which will impact upon the conduct of Council elections. On the 27th January 2023, an Information Digest was published to explain the

implementation of the Act at that stage, further provisions are now anticipated to come into force as follows:

Absent Voting

7.2 The following provisions are due to come into force on 31st October 2023 and will apply for all types of election in England.

- Electors will have the option to apply for a postal vote and some types of proxy vote using a new online portal.
- New identity verification requirements will be introduced for all absent vote applications, whether they are made online or by the paper route, with the exception of emergency proxies:
- Application forms will require a National Insurance Number to be included
- All applications will be subject to a DWP check similar to the process for applications to register to vote.
- For applicants whose identity cannot be verified by the DWP check, there will be a need to follow an exceptions process and, failing that, an attestation process.
- Postal vote arrangements will be limited to a maximum of three years, at which point the elector will need to make a new application.
- All electors who have a permanent proxy vote will be required to reapply for their proxy vote before 31 January 2024
- The personal identifiers (PI) refresh process for proxy voters and postal voters at devolved polls remains the same however and will continue to operate on the five-year refresh cycle.

Overseas Electors

7.3 The following provisions are expected to come into force in January 2024:

- The removal of the 15-year limit on expatriates' right to vote in UK Parliamentary elections. All British citizens overseas who were previously registered or resident in the UK will be enfranchised

- The registration period will be extended to a maximum of three years and renewals will be set to a fixed point of 1 November, in line with the updated absent voting provisions for overseas electors
- Overseas electors will have the option to re-apply for a postal or refresh their proxy vote, which will then be ‘tied’ to the new three-year period of registration (unless a shorter period for the absent vote is specified by the elector and it therefore expires before)

Postal Vote Handling

7.4 These provisions are anticipated to be in effect for polls taking place from May 2024:

- There will be new restrictions on the handling of postal votes, including:
 - a ban on political campaigners handling postal votes, except where the postal vote is their own, that of a close family member or someone that they provide regular care for
 - limits on the number of postal votes that a person can hand in at polling stations and council offices
 - any person who hands in postal votes at polling stations or council offices will be required to complete a form
- Secrecy requirements will be extended to postal and proxy votes

Parliamentary Constituencies Boundary Changes

7.5 The Boundary Commission have now concluded the 2023 Review of Parliamentary constituencies in England. When the draft Order is approved by the Privy council, the new constituencies will be used for the next General election following that date (for any by-election that may take place, beforehand existing constituencies are used)

7.6 There were no proposed changes to High Peak’s current boundaries for the parliamentary constituency, which are co-terminus with the Borough’s.

7.7 Details of the changes can be found on the Boundary Commission website, please see link below:
