

		T1	T2	T3	T4	T5	T6	T7	T8	T9	T10
Species		Alder	Alder	Alder							
A	Visual amenity (34 and 35)										
10	High visual Amenity - Very large trees, or large trees that are prominent landscape features										
7	Relatively high visual amenity - Large trees, or medium trees clearly visible to the public										
4	Some visual amenity - Medium trees, or larger trees with limited view only – important in locality										
1	Limited visual amenity - Small trees, or larger trees visible only with difficulty – important to low number of people	1	1	1							
0	Low visual amenity - Young, v. small, or trees not visible to the public, regardless of size										
Sub-total Score – visual amenity		1	1	1	0	0	0	0	0	0	0

B	Other/Exceptional circumstances (36 & 37) Note: More than 1 can apply										
2	Exceptional landscape value										
2	Historical associations										
2	Botanical interest or rarity										
2	Screening/buffering	2	2	2							
2	Part of a deliberate composition										
2	Conservation Area (in or next to)	2	2	2							
2	Contribution to setting of a listed building										
2	Veteran or ancient tree										
2	Trees of particularly good form										
2	Assessment of the importance of Wildlife (17 & 45)										
2	Other – describe										
Sub total Other factors		4	4	4	0	0	0	0	0	0	0

C	Suitability of species for the location										
Would future replacement of trees reasonably be the same species in the same location (38)											
Landscape context - how do the trees relate to their surroundings (39)											
Relative to house and garden, to the street, to the locality											
Canopy cover for ward											
Are the majority of the benefits of the tree(s) in the future? If so describe (42)											
10	Very suitable and in context										
8	Suitable	8	8								
5	Fairly suitable – some issues			5							
3	Not really suitable to landscape context but make a contribution to the landscape as a whole										
0	Unsuitable or detrimental to landscape										
Sub – total suitability		8	8	5	0	0	0	0	0	0	0

D	Condition of the tree(s) (43 and 44)										
Comments including brief notes on condition, past and future management (43)											
5	Good - Sound, healthy tree needing little, if any attention	5	5	5							

3	Fair - Tree with minor, rectifiable defects, or in the early stages of decline.																			
1	Poor - A tree with significant, non-rectifiable structural or physiological flaws.																			
0	Dead or dangerous																			
	Remaining longevity (in years)																			
5	100+																			
4	40-100	4	4																	
3	20-40																			
2	10-20			2																
0	<10																			
	Sub-total - condition	9	9	7	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0

A. Visual amenity 10	1	1	1	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0
B. Other factors 20	4	4	4	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0
C. Suitability 10	8	8	5	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0
D. Condition 10	9	9	7	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0
Total Score	22	22	17	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0

<20 – Not suitable for TPO
20-25 – Consider making an order
25+ – Apply TPO
