

Health and social care in the High Peak – key challenges and opportunities

Dr Chris Clayton, Chief Executive DD ICB

The NHS 10-Year Plan will be built around 3 shifts:

Moving more care from hospitals to communities

Moving care from hospitals into homes, closer to the places people live and their community.

Making better use of technology

Using digital technology promises faster, higher-quality, more connected care.

Preventing sickness, not just treating it

Preventing rather than simply treating sickness will keep people healthier for longer.

High Peak Place Alliance priorities 24/25 (to be refreshed soon)

- Team Up / Discharge – Integrated Hub working at Cavendish
- Dementia
- End Of Life
- Carers Engagement Project
- Children & Young People Mental Health
- Falls Prevention
- Living Well

High Peak Health & Wellbeing Partnership priorities 24/25 (to be refreshed soon)

- Financial Inclusion
- Move More
- Children & Young People Mental Health and Emotional Wellbeing
- Social Connectedness
- Mental Health & Suicide Prevention
- Supporting Older People
- Connecting People to volunteering, services & groups

Challenges

- Impact of cross system working with Greater Manchester partners, particularly in relation to commissioning decisions that affect Glossop.
- Living Well Collaborative – Funding coming to an end in March. Looking towards a Team Up approach to Mental Health.
- VCSE funding – in line with all Places

Opportunities

- CVD Prevention – Integrated Preventative Approach – Brings together partners from across the system, alongside patient reps, to focus on reducing health inequalities in the most deprived areas.
- Team Up – Home Visiting Service – this is well established in the High Peak. Co-located with DCHS and ASC. Opportunities to deliver more proactive care and support higher complexity patients.
- Neighbourhood Groups - Collaborative working across partners and members of the community, on priorities that are important to them. **And many more!**
